Mission

The Krenim Warship’s goal is maintaining the territorial integrity of the Imperium, protecting it from all threats, foreign and domestic.

Features

The Krenim Warship’s primary feature of note is its armament of chroniton torpedoes. This single feature has allowed the Imperium to dominate its local stellar neighborhood, for no other local species has an adequate defense against it. Otherwise, the only other noteworthy feature of the Krenim Warship is its advanced warp drive, faster than that of other local powers, such as the Zahl and Nihydron.

Background

The Krenim Warship is the primary capital ship of the Krenim Imperium and is a common sight in and around its territory. With its chroniton torpedoes, this ship has a decisive advantage against starships lacking temporal shielding, as its torpedoes are capable of completely bypassing non-temporal shields. The warship itself is not particularly well-armed or defended, assuming one has temporal shielding. This detail was proved rather decisively when in an alternate timeline the Intrepid-class starship Voyager was capable of holding off multiple Krenim warships, even without temporal shielding. The Krenim warship is still in use in the Imperium today, as no other foes within the local region have developed sufficient countermeasures against Krenim temporal technology.
